1. Acceptance of Purchase Order
This Purchase Order, including the terms on the face of the Purchase Order, constitutes the entire agreement of the parties with respect to the subject matter on the face of the Purchase Order and, therefore, supersedes all prior offers, negotiations, and agreements regarding the subject matter of this Purchase Order. Seller accepts this Purchase Order by acknowledging the Purchase Order, accepting payment, or commencing performance. Any differing or additional terms proposed by Seller or included in Seller’s acknowledgment are objected to and have no effect unless the Buyer expressly accepts them in writing.

2. Assignments
Neither party shall assign its contract rights or delegate its contract duties without prior written consent from the other party. However, Seller may assign rights to be paid amounts due, or to become due, to a financing institution if Buyer is promptly furnished a signed copy of the assignment reasonably in advance of the due date for payment of any such amounts. Any amounts assigned by Seller will be subject to setoff or recoupment for any present or future claims of Buyer against Seller. Buyer may make settlements or adjustments in price or both without notice to any assignee financing institution.

3. Business Ethics
Seller shall conduct itself with the highest degree of integrity and honesty and comply with all applicable federal and state laws. Seller should have a written code of business ethics with an employee training program and internal control system that promotes compliance with such code of business ethics and conduct.

4. Changes
The Buyer’s Procurement Representative may at any time, by written notice, and without notice to sureties or assignees, make changes within the general scope of this Purchase Order in any one or more of the following:
(1) drawings, designs, or specifications;
(2) method of shipping or packing;
(3) place of inspection, acceptance, or point of delivery; and
(4) delivery schedule.

Seller may request and initiate a deviation for any drawing, design, or specification change by contacting Buyer and requesting a Buyer purchasing deviation request form. Seller shall complete and submit request for approval by Buyer, and shall not execute the requested deviation until written approval from Buyer has been received.

If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of this Purchase Order, Buyer shall make an equitable adjustment in the Purchase Order price or delivery schedule or both, and shall modify this Purchase Order accordingly. Seller must assert its right to an equitable adjustment under this clause within (a) thirty (30) days from the date of receipt of the written change order from Buyer; or (b) provide cost or schedule impact at time of submission of Seller’s deviation request. If the Seller’s proposed equitable adjustment includes the cost of property made obsolete or excess by the change, Buyer may prescribe the manner of disposition of the property. Failure to agree to any adjustment will be resolved in accordance with the “Disputes” clause of this Purchase Order. However, nothing contained in this “Changes” clause may excuse Seller from proceeding without delay in the performance of this Purchase Order as changed.

5. Communication with Buyer’s Customer
Buyer shall communicate and coordinate with the customer, including the U. S. Government, as it affects the applicable prime contract, this Purchase Order, and any related contract. Seller shall not communicate or coordinate with the customer unless Buyer gives written permission to Seller.

6. Compliance with Laws
This Purchase Order shall be construed in accordance with, and governed by, the laws of the Commonwealth of Virginia without regard to that state’s choice of law principles, except that any provision in this Purchase Order that is incorporated by full text, by reference, or is substantially based on the Federal Acquisition Regulation (FAR), Defense Federal Acquisition Regulation Supplement (DFARS), or other agency(s) regulation, including agency regulations that implement and supplement the FAR, shall be construed and interpreted according to the federal common law of Government Contracts as set forth and applied by federal judicial bodies, boards of contracts appeals, and quasi-judicial agencies of the federal Government. This purchase order and activities hereunder are within the jurisdiction of the United States Government. Any knowing and willful act to falsify, conceal, or alter a material fact, or any false, fraudulent, or fictitious statement or representation in connection with the performance of work under this purchase order may be punishable in accordance with applicable Federal statutes.

9. Disputes
All disputes under this Purchase Order that are not disposed of by mutual agreement may be decided by recourse to an action at law or in equity. 12. Export/Import Controls
(a) Seller agrees to comply with all applicable export and re-export control laws and regulations, including the Export Administration Regulations (“EAR”) maintained by the U.S. Department of Commerce; trade and economic sanctions maintained by the Treasury Department’s Office of Foreign Assets Control; and the International Traffic in Arms Regulations (“ITAR”) maintained by the Department of State. Specifically, Seller covenants that Seller shall not, directly or indirectly, sell, export, re-export, transfer, divert, or otherwise dispose of any products, software, or technology (including products derived from or based on such technology) that is subject to this Agreement to any destination, entity, or person prohibited by the laws or regulations of any jurisdiction, including without limitation, the United States, without obtaining prior authorization from the relevant government authorities as required by those laws and regulations.

Seller shall immediately notify the Buyer if Seller, or any parent, subsidiary, or affiliate of Seller becomes listed on any Restricted Party List or if Seller's export privileges are otherwise denied, suspended, or revoked in whole or in part by any U.S. or non-U.S. government entity or agency.

(c) Seller shall include paragraphs (a) through (c) of this clause or equivalent provisions in lower tier subcontracts for the delivery of items that will be included in or delivered as Work to Buyer. Seller shall immediately notify Buyer upon learning that any lower tier subcontractor with which it engages has become listed on the Restricted Parties List.

13. Extras
Work must not be supplied in excess of quantities specified in this Purchase Order. Seller will be liable for handling charges and return shipment costs for any excess quantities.

14. Force Majeure
Except for defaults of Seller’s subcontractors at any tier, neither Buyer nor Seller will be liable for any failure to perform due to any cause beyond their reasonable control and without their fault or negligence. Such causes include, but are not limited to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, terrorism, quarantine restrictions, strikes, freight embargoes, and unusually severe weather. In the event that performance of this Purchase Order is hindered, delayed or adversely affected by causes of the type described above (“Force Majeure”), then the party whose performance is so affected shall notify the other party’s authorized representative in writing and, at Buyer’ option, this Purchase Order will be completed with such adjustments as are reasonably required by the existence of Force Majeure or this Purchase Order may be terminated for convenience.

15. Indemnification
Seller shall indemnify, hold harmless, and defend Buyer and its directors, officers, employees, agents, customers, and affiliates from any and all costs, claims, suits, liabilities, damages, and expenses of any kind whatsoever (including, but not limited to, court costs and reasonable attorneys’ fees), arising out of or in connection with: (a) any breach or alleged breach of any representation, warranty, covenant, or agreement made by Seller pursuant to this Purchase Order; (b) any claim of unfair competition or infringement of any patent, copyright, trademark, tradename, or other intellectual property or contract right arising out of the manufacture, sale, use, or distribution of any Work; (c) any claim of death or bodily injury to persons, or damage to property, caused or alleged to have been caused by the Work; (d) any delay in the delivery of the Work; and (e) any act or omission of willful misconduct, recklessness, or negligence of Seller or any agent or representative of Seller. Buyer may offset any amounts owed to it by Seller in connection with this indemnification provision or otherwise against any amounts it may owe Buyer in connection with this Purchase Order or otherwise. This clause survives expiration or termination of this Agreement.

16. Independent Contractor Relationship
Seller is an independent contractor in all its operations and activities hereunder. Seller’s employees shall perform Work under this Purchase Order.

17. Information of the Parties
(a) Information provided by Buyer to Seller remains the property of Buyer. Seller shall comply with the terms of any non-disclosure or proprietary information agreement with Buyer and comply with all proprietary information markings and restrictive legends applied by Buyer to anything provided hereunder to Seller. Seller shall not use any Buyer-provided information for any purpose except to perform this Agreement and shall not disclose such information to third parties without the prior written consent of Buyer. Seller shall maintain data protection processes and systems sufficient to adequately protect Buyer-provided information and comply with any law or regulation applicable to such information.

(b) Any Buyer-provided information identified as proprietary or subject to restrictions on public disclosure by law or regulation shall be encrypted (i) if transmitted via the Internet; or (ii) during electronic storage if potentially accessible by the Internet or otherwise by non-authorized users.

(c) The provisions set forth above are in addition to and do not alter, change or supersede any obligations contained in a nondisclosure agreement between the parties.

(d) Seller shall not provide any proprietary information to Buyer without prior execution of a nondisclosure agreement by the parties.

(e) Notwithstanding the above, if the Buyer furnishes information to the Seller, which the U. S. Government owns or has the right to authorize the use of, nothing herein shall be construed to mean that Buyer acting on its own behalf, may modify or limit any rights the Government may have to authorize Seller's use of such information in support of other U. S. Government prime contracts.

18. Infringement
Seller warrants that all Work performed or delivered under this Purchase Order, which are not of Buyer’s design, will not infringe or otherwise violate the intellectual property rights of any third party in the United States or any foreign country.

Seller may replace or modify infringing items with comparable goods acceptable to Buyer of substantially the same form, fit, and function so as to remove the source of infringement, and Seller’s obligations under this Purchase Order including those contained in this section, “Infringement,” and the “Warranty” section will apply to the replacement and modified items. If the use or sale of any of the above items is enjoined as a result of such claim, suit or action, Seller, at no expense to Buyer, shall obtain for Buyer and its customers the right to use and sell said item.

19. Inspection
Buyer and its customer may inspect all Work at reasonable times and places, including, when practicable, during manufacture and before shipment. Seller shall provide all information, facilities, and assistance necessary for safe and convenient inspection without additional charge. No such inspection will relieve Seller of its obligations to furnish and warrant all Work in accordance with the requirements of this Purchase Order. Buyer’s final inspection and acceptance must be at destination. Buyer’s failure to inspect does not relieve Seller of any responsibility to perform according to the terms of the Purchase Order. Seller shall not re-tender rejected Work without disclosing the corrective action taken.

20. Insurance
Seller shall maintain liability and property damage insurance adequate to cover its obligations under this Purchase Order. Additionally, Seller shall maintain workmen’s compensation coverage on all employees engaged in the performance of its obligations under this Purchase Order.

21. Intellectual Property
Seller hereby assigns, conveys and transfers to Buyer, without any further consideration, each and every invention, discovery, improvement, mask work, and patent relating to any Work conceived, developed, or generated in performance of this Purchase Order, and upon request shall execute any required papers and furnish all reasonable assistance to Buyer to vest all right, title and interest in such inventions, discoveries, improvements, maskworks, and patents in Buyer.

All data, copyrights, reports, works of authorship, memoranda and other materials in written form, including machine readable form, prepared or developed in performance of this Purchase Order will be the sole property of Buyer, and will be used by Seller solely in work for Buyer. To the extent that any Works may not, by operation of law, be works made for hire, Seller hereby assigns to Buyer the ownership of copyright in the Works and Buyer will obtain and hold in its own name copyrights, registrations, and similar protection which may be available in the Works. Seller agrees to give Buyer or its designees all assistance reasonably required to perfect such rights.

To the extent that any pre-existing inventions, technology, designs, works of authorship, mask works, technical information, computer software, and other information or materials that are used, included, or contained in the Work and is not owned by Buyer pursuant to this or a previous agreement
with Seller, Seller shall notify Buyer prior to executing this Agreement and the parties will in good faith negotiate license or use rights. If Buyer issues a change order or modification during performance of this Agreement that requires the use of any of Seller’s preexisting inventions, technology, designs, works of authorship, mask works, technical information, computer software, and other information or materials, the Seller shall notify Buyer before work on the change order or modification begins and the parties will in good faith negotiate license or use rights.

If Seller fails to notify Buyer prior to executing the Agreement, the Seller hereby grants to Buyer the necessary rights in any pre-existing inventions, technology, designs, works of authorship, mask works, technical information, computer software, and other information or materials that are used, included, or contained in the Work and not owned by Buyer pursuant to this or a previous agreement with Seller to perform its obligations under Buyer’s prime contract.

Notwithstanding the preceding, for any technical data, computer software, inventions or patents (“Information”) which the U. S. Government owns or has the right to authorize the use of, nothing herein shall be construed to mean that Buyer acting on its own behalf, may modify or limit any rights the Government may have to authorize Seller's use of such Information in support of other U. S. Government prime contracts.

22. Invoicing

Unless otherwise specified in this Purchase Order, terms of payment are net 45 days from receipt of invoice. The time allowable for payments will begin after the following: (1) Buyer’ receipt of Seller’s invoice, and (2) Delivery of acceptable supplies or performance of satisfactory services. Seller’s invoices shall include the Purchase Order number.

23. New Materials and Counterfeit Work

For purposes of this clause, Work consists of those parts delivered under this Purchase Order that are the lowest level of separately identifiable items (e.g., articles, components, goods, and assemblies). “Counterfeit Work” means Work that is or contains items misrepresented as having been designed and/or produced under an approved system or other acceptable method. The term also includes approved Work that has reached a design life limit or has been damaged beyond possible repair, but is altered and misrepresented as acceptable.

Seller shall not deliver Counterfeit Work or suspected Counterfeit Work to Buyer under this Purchase Order. The Work to be delivered hereunder will consist of new materials, as defined in FAR 52.211-5, not used, or reconditioned, remanufactured, or of such age as to impair its usefulness or safety. Any Work delivered shall be from and only contain materials obtained directly from the Original Equipment Manufacturer (OEM)/Original Component Manufacturer (OCM) or an authorized OEM/OCM reseller or distributor. Work shall not be acquired from independent distributors or brokers unless approved in advance in writing by Buyer.

Seller shall immediately notify Buyer if Seller becomes aware or suspects that it has furnished Counterfeit Work. When requested by Buyer, Seller shall provide OCM/OEM documentation that authenticates traceability of the affected items to the applicable OCM/OEM. Buyer can face substantial Federal penalties, including fines and/or imprisonment, if found to be intentionally trafficking in counterfeit goods or services.

Seller shall establish and maintain an acceptable counterfeit part detection and avoidance system in accordance with industry recognized standards and in accordance with the requirements of DFARS 252.246-7007 (“Contractor Counterfeit Electronic Part Detection and Avoidance System”) and shall comply with the requirements of DFARS 252.246-7008 (“Sources of Electronic Parts”).

This clause applies in addition to any quality provision, specification, statement of work or other provision included in this Purchase Order addressing the authenticity of Work. If any other clause or provision in this Purchase Order conflicts with this clause in part or in whole, this clause shall take precedence.

In the event that Work delivered under this Order constitutes or includes Counterfeit Work, Seller shall, at its expense, promptly replace such Counterfeit Work with genuine Work conforming to the requirements of this Purchase Order. Notwithstanding any other clause in this Purchase Order, Seller shall be liable for all costs relating to the removal and replacement of Counterfeit Work, including without limitation Buyer’s costs of removing Counterfeit Work, of installing replacement Work, and of any testing necessitated by the reinstatement of Work after Counterfeit Work has been exchanged. The remedies contained in this paragraph are in addition to any remedies Buyer may have at law, equity or under other provisions of this Purchase Order.

Seller shall include this clause or equivalent provisions in lower tier subcontracts for the delivery of items that will be included in or furnished as Work to Buyer.

24. Notification of Debarment/Suspension

By acceptance of this Purchase Order, Seller certifies that as of the date of award of this Purchase Order neither the Seller, nor any of its Principals, nor any subcontractors engaged to perform on this agreement is debarred, suspended or proposed for debarment by the federal government. Seller shall notify Buyer if any of their subcontractors, or any of its Principals, are or become debarred, suspended, or proposed for debarment by the federal government provided however that this requirement shall not apply to the purchase of commercial off the shelf items. Seller shall include the requirements of this clause in each subcontract that (1) exceeds $35,000 in value; and (2) is not a subcontract for commercially available off-the-shelf items.

25. Precedence

Any inconsistencies in this Purchase Order will be resolved in accordance with the following descending order of precedence:
(1) Face of the Purchase Order and/or Change Order, release document, or schedule, (including any continuation sheets), as applicable, including any special terms and conditions;
(2) Article 1 (Terms and Conditions) and Article 2 (FAR/DFAR Flowdown Provisions);
(3) any supplementary document invoked in this Purchase Order; and
(4) the Statement of Work.

26. Priority Rating
If so identified, this Purchase Order is a "rated order" certified for national defense, emergency preparedness, and energy program use, and Seller shall follow all the requirements of the Defense Priorities and Allocation System Regulation (15 C.F.R. Part 700).

27. Progeny Systems Property
All drawings, tools, jigs, dies, fixtures, materials, and other items supplied or purchased and paid for as a contract line item by Buyer are the property of Buyer ("Furnished Items"). All such items will be used only in the performance of work under this Purchase Order unless Buyer consents otherwise in writing. Except for reasonable wear and tear, Seller shall promptly notify Buyer of any loss or damage. Material made in accordance with Buyer’ specifications and drawings will not be furnished or quoted by Seller to any other person or concern without Buyer’ prior written consent. As directed by Buyer, Seller shall clearly mark (if not so marked) Buyer’s Property to show its ownership. At Buyer’ request, or upon completion of this Purchase Order or both, the Seller shall submit, in an acceptable form, inventory lists of Buyer’s Property and shall deliver or make such other disposal as may be directed by Buyer.

Notwithstanding the above, if the Buyer provides furnished items which the U. S. Government owns or has the right to authorize the use of, nothing herein shall be construed to mean that Buyer acting on its own behalf, may modify or limit any rights the Government may have to authorize Seller’s use of such Furnished Items in support of other U. S. Government prime contracts.

28. Purchase Order Direction
Only the Buyer’s Procurement Representative has authority on behalf of Buyer to make changes to this Purchase Order. All changes must be identified as such in writing and executed by the parties. Buyer’s engineering and technical personnel may from time to time render assistance or give technical advice or discuss or effect an exchange of information with Seller's personnel concerning the Work hereunder. No such action will be deemed to be a change under the "Changes" clause of this Purchase Order and will not be the basis for equitable adjustment. Except as otherwise provided herein, all notices to be furnished by either party must be in writing and sent to the Procurement Representative of the other party.

29. Quality Control System
(a) Seller shall provide and maintain a quality control system to an industry recognized Quality Standard and in compliance with any other specific quality requirements identified in this Purchase Order.
(b) Records of all quality control inspection work by Seller shall be kept complete and available to Buyer and its customers.

30. Retention of Records
Unless a longer period is specified in this Purchase Order or by law or regulation, Seller shall retain all records related to this Purchase Order for three (3) years from the date of final payment received by Seller. Records related to this Purchase Order include, but are not limited to, financial, proposal, procurement, specifications, production, inspection, test, quality, shipping and export, and certification records. At no additional cost, Seller shall timely provide access to such records to the Buyer and/or its customers upon request.

31. Severability
Each clause, paragraph and subparagraph of this Purchase Order is severable, and if one or more of them are declared invalid, the remaining provisions of this Purchase Order will remain in full force and effect.

32. Shipping Instructions
Seller shall properly package materials hereunder. No charges will be allowed for packing, crating, freight, local cartage, or any other services unless so specified in this Purchase Order. Seller shall at all times comply with Buyer’s written shipping instructions. Unless otherwise directed, all items shipped on the same day from and to a single location must be consolidated on one bill of lading or air bill, as appropriate. Seller shall submit all required shipping papers to Buyer prior to final payment. For material purchased F.O.B. origin, the Seller shall not insure and not declare a value except when transportation rates are based on “released value,” in which instance the Seller will annotate on the bill of lading the lowest released value provided in applicable tariffs. Purchase Order number(s) must appear on all correspondence, shipping labels, and shipping documents, including all packing sheets, bills of lading, air bills, and invoices.

33. Stop Work
Seller shall stop Work for up to ninety (90) days in accordance with any written notice received from Buyer, or for such longer period of time as the parties may agree, and shall take all reasonable steps to minimize the incurrence of costs allocable to the Work during the period of Work stoppage. Within such period, Buyer may either terminate for convenience in accordance with the provisions of this Purchase Order or continue the Work by written notice to Seller. In the event of a continuation, an equitable adjustment in accordance with the principles of the "Changes" clause will be made to the price, delivery schedule, or other provision(s) affected by the Work stoppage, if applicable, provided that the claim for equitable adjustment is made within thirty (30) days after date of notice to continue.

34. Subcontracts
Seller agrees to obtain Buyer written approval before subcontracting any portion of this Purchase Order, provided however that this limitation shall not apply to the purchase of standard commercial supplies or raw material, if applicable.

35. Survival
Provisions of this Purchase Order, which by their nature should apply beyond their terms, will remain in force after any termination or expiration of this Agreement including, but not limited to, the following provisions: Compliance with Laws, Disclosure, Disputes, Indemnification, Infringement, Insurance, Intellectual Property, New Materials and Counterfeit Work, Survival, Warranty and Article 2.

36. Taxes
Unless this Purchase Order specifies otherwise, the price of this Purchase Order includes, and Seller is liable for and shall pay, all taxes, impositions, charges and excisions imposed on or measured by this Purchase Order except for applicable sales and use taxes that are separately stated on Seller’s invoice. Prices will not include any taxes, impositions, charges or excisions for which Buyer has furnished a valid exemption certificate or other evidence of exemption. To the extent that Buyer is required to do so under applicable United States law or tax regulations, Buyer may deduct from any payments due to Seller pursuant to this Purchase Order such taxes as Buyer is required to withhold from such payments and pay such taxes to the relevant tax authorities; provided, however, that Buyer provides Seller with relevant tax receipts or other suitable documentation evidencing the payment of such taxes promptly after such taxes are paid.

37. Termination for Convenience
Buyer may, by notice in writing, terminate this Purchase Order or work under this Purchase Order for convenience and without cause, in whole or in part, at any time. In the event of partial termination, Seller is not excused from performance of the non-terminated balance of work under the Purchase Order. In the event of such termination, Seller shall immediately stop all work hereunder and shall immediately cause any and all of its suppliers and subcontractors to cease work. Seller will be reimbursed for actual, reasonable, substantiated and allowable costs, plus a reasonable profit for work performed to date of termination. Seller will not be paid for any Work performed or costs incurred which reasonably could have been avoided. In no event will Buyer be liable for lost or anticipated profits, or unabsorbed indirect costs or overhead, or for any sum in excess of the total Purchase Order price. Seller's termination claim will be submitted within ninety (90) days from the effective date of the termination. Buyer may take immediate possession of all work so performed upon written notice of termination to Seller.

38. Termination for Default
Buyer may, by notice in writing, terminate this Purchase Order in whole or in part at any time for breach of any one or more of its terms, for failure to make progress so as to endanger performance of this Purchase Order, or failure to provide adequate assurance of future performance, or Seller files or has filed against it a petition in bankruptcy; or becomes insolvent or suffers a material adverse change in financial condition. Seller may have ten (10) days (or such longer period as Buyer may authorize in writing) to cure any such failure after receipt of notice from Buyer. Default involving delivery schedule delays, bankruptcy or adverse change in financial condition will not be subject to the cure provision. In the event of partial termination, Seller is not excused from performance of the non-terminated balance of work under the Purchase Order.

Following a termination for default of this Purchase Order, Seller will only be compensated for Work actually delivered and accepted. Buyer may require Seller to deliver to Buyer any supplies and materials, manufacturing materials, and manufacturing drawings that Seller has specifically produced or acquired for the terminated portion of this Purchase Order. Buyer and Seller shall agree on the amount of payment for these other deliverables. Seller’s obligations, including but not limited to obligations under the warranty, intellectual property disclosure, infringement, and indemnification provisions of this Purchase Order, will survive such termination. Upon the occurrence and during the continuation of a default, Buyer may exercise any and all rights and remedies available to it under applicable law and equity, including without limitation, cancellation of this Purchase Order. If after termination for default under this Purchase Order, it is determined that Seller was not in default, such termination will be deemed a termination for convenience.

39. Timely Performance
Failure to deliver in accordance with the delivery schedule under this Purchase Order, if unexcused, will be considered a material breach of this Purchase Order. No acts of Buyer, including without limitation modifications of this Purchase Order or acceptance of late deliveries, will constitute waiver of this provision. For any non-conforming product, Seller shall make every effort to respond to Buyer’s corrective action request in a timely and effective manner, and shall keep Buyer informed of any potential delays in the implementation of the corrective action and delivery of the final product. Buyer also reserves the right to refuse or return, at Seller’s risk and expense, shipments made in excess of Buyer’s orders or in advance of required schedules, or to defer payment on advance deliveries until scheduled delivery dates. In the event of a termination for convenience or change, no claim will be allowed for any manufacture or procurement in advance of Seller's normal flow time unless there has been prior written consent by Buyer. Seller shall notify Buyer in writing immediately of any actual or potential delay to the performance of this Purchase Order. Such notice will include a proposed revised schedule but such notice and proposal or Buyer’s receipt or acceptance thereof will not constitute a waiver to Buyer’s rights and remedies hereunder.

40. Waivers, Approvals, and Remedies
Failure by either party to enforce any of the provisions of this Purchase Order or applicable law will not constitute a waiver of the requirements of such provisions or law, or as a waiver of the right of a party thereafter to enforce such provision or law. Buyer's approval of documents will not relieve Seller of its obligation to comply with the requirements of this Purchase Order. The rights and remedies of either party in this Purchase Order are cumulative and in addition to any other rights and remedies provided by law or in equity.

41. Warranty
Seller warrants that all Work delivered under this Purchase Order will: (1) be free from defects in materials and workmanship; (2) conform to the specifications, drawings, samples or other descriptions; (3) be free from defects in design, except to the extent that the supplies are manufactured to Buyer design; (4) be suitable for the intended purpose, if Seller is aware of purpose and Buyer relies on Seller’s judgment and selection; and (5) be free from defects in title. This warranty shall begin upon final acceptance and extend for a period of one (1) year. If any non-conforming Work is identified within the warranty period, Seller shall, at Buyer option, promptly repair, replace, or re-perform the non-conforming Work. Transportation of
replacement Work, return of non-conforming Work, and re-performance of Work shall be at Seller's expense. If repair, or replacement, or re-performance of Work is not timely, Buyer may elect to return, re-perform, repair, replace, or re-procure the Work at Seller's expense. If the Work furnished contains any manufacturer's warranties, Seller hereby assigns such warranties to Buyer and Buyer's Customer. The warranties in this provision shall inure to the benefit of Buyer, its customers, and subsequent owners or users of any delivered Work under this Purchase Order.

   1. The Seller and/or any of its Principals-
      a. Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
      b. Have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for:
         - commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

      - a. Any violation of Federal criminal tax laws; or
      - b. Tax evasion.

   (i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

   (ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

   (2) Examples.

   (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

   (ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. 6320 entitling the taxpayer to request a hearing with IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

   (iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

   (iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

   2. The Seller has not, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

   3. "Principal," for the purpose of this certification, means an officer; director; owner; partner; or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division, or business segment, and similar positions).
This certification concerns a matter within the jurisdiction of any agency of the United States, and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Section 1001, Title 18, United States Code.

B. 1. The Seller shall provide immediate written notice to Buyer if, at any time prior to contract award, the Seller learns that its certification was erroneous when submitted or has become erroneous by reasons of changed circumstances.

2. The certification in paragraph A. of this provision is a material representation of fact upon which reliance was placed when making award.
